Feb. 15th 1943

Dear Son:-

Your letter of a few days ago received, with the news that you contemplated engagement. That's your business Son and we are backing you in whatever undertakings along that line you embark in the same as always.

Tell us about her complexion, eyes, height, weight, education, religion, sports preferences etc? I was not as surprised as your Mother was for it was a case of History repeating itself to me, I did about the same thing. I'm not so old but what I can remember when I neglected to write home because I was too busy writing to your Mother.

Inclosed find funds to finance another ski trip or whatever. Write me your wants and we will get together O.K. on them.

About the car? Do as you wish with it, to your financial advantage, but you don't have to sell it to get anything you want. If the car will be of any advantage between now and your active duty keep it. Cars that in fairly good mechanical shape, with fair to good tires, are selling at a premium down here, I understand, so I suppose they are back there.

Well, Son write, when you have time

for we want to hear all you care to tell
as you are still our son.

Your
Dad.

P.S. My Position as Division Engineer
was made permanent last week.
D.D.
