Dr. W. E. B. DuBois
Atlanta University
Atlanta, Georgia

15-16-15
Dear Dr. DuBois:

You may be interested to know that you and your contributions to American and world thinking are being discussed very freely at the University of Pittsburgh. Just last week your book "Black Reconstruction" was given the whole class period. I was the only Negro in the class and of course to me it was gratifying. Kindly let me know where I can purchase this book. At the present time I am reading your book-"The Negro" as well as your weekly contributions in the Pittsburgh Courier.

Community activities interest me very much as they lead to success in my work. The Afro-American Service Club, which I organized last year, is interested in economic stability. Kindly suggest how the Consumers' Cooperative Program works. We MUST do something constructive in our community in order to save ourselves. If at any time you have a spare moment and wish to stimulate our thinking, we would appreciate a line from you.

Yours very truly,

The Public Schools of Hancock County

Anthony J. Major
