Beatrice A. McIntosh Cookery Collection

At nearly 5,000 items and growing, the Beatrice A. McIntosh Cookery Collection is an important resource for study of the history and culture of food in New England and the evolution of food production, marketing, and consumption. Along with hundreds of commercially-produced cookbooks from the 19th and 20th centuries, the McIntosh Collection contains an unusually rich assortment of community cookbooks (created by and for local organizations, usually for charitable purposes), corporate cookbooks (created by food-industry companies to promote their products), and ephemera (cookery-related items, ranging from menus to souvenirs, gift items, and packaging). For more information, visit our cookbook blog at <http://www.library.umass.edu/spcoll/cookbooks/>.
