Dear Friend:

Enclosed is a postcard addressed to President Truman asking for the dropping of the indictment against Dr. Du Bois and his associates. We hope your club will order a supply to distribute to your members and for the people in the neighborhood.

We cannot urge too strongly the need for action within the next two weeks in order to keep Dr. Du Bois and his associates from going to trial on October 2nd.

Sincerely,

Alice Citron

Dear Mr. President:

I think the government's prosecution of Dr. W. E. B. Du Bois and his associates in the former Peace Information Center is a serious error. Justice in this case can best be served by having Attorney General McGrath drop this indictment.
